

What Doctors, Scientists and Nutritionists Say...

Dr. Hiromi Shinya

"I have examined more than 300,000 people's stomachs and intestines for 35 years and realize that our health depends largely on our dietary life."

"It is widely recognized in the medical profession that a healthy and clean colon is one of the most important precursors to good health and that the great majority of body ailments and diseases originate in an acidic and dirty colon. Water is essential for your health.

"Kangen Water is alkaline rich water (ph 8-9), and is considered the very best drinking water because of its incomparable powers of hydration, detoxification, and anti-oxidation."

~Dr. Hiromi Shinya, Leading Gastroenterologist and Surgeon

Dr. Hiromi Shinya is Clinical Professor of Surgery at Albert Einstein College of Medicine and Chief of the Endoscopy Unit of Beth Israel Hospital in New York, as well as an advisor for Maeda Hospital and Hanzomon Gastrointestinal Clinic in Japan. A native of Japan, Dr. Shinya received his medical education both in Japan and in the United States. He is Japan's most famous doctor and treats members of Japan's royal family and top government officials. His practice in the United States also includes celebrities and Presidents. He is Vice Chairman of the Japanese Medical Association in the USA, and much in demand as a speaker internationally.

Shinya, MD is well known as the developer of the field of colonoscopic surgery (the Shinya Technique). He performed the first non-invasive colon surgery. Using his own invention of the colonoscope, he discovered the ability to both examine and operate on the colon without abdominal incision.

In his book The Enzyme, which has sold two million copies in Japan, he extols the virtues of drinking alkaline ionized water, specifically, Kangen Water® produced only by the Enagic® devices. Dr. Shinya puts all his patients on Kangen Water® as part of his recommended diet.

Dr. Horst Filtzer

"When I first drank Kangen Water I experienced something I had never have before, I liked it, I liked it very much. ... As I investigated the product, as I investigated the concept of ionized water, as I investigated the concept of alkalization of the body cells, I became more and more convinced that this is a product that is of absolute value to all mankind. That it is a product that should be used in all households if at all possible, because it clearly is superior to any form of water than I ever encountered."

"Personally, I can testify that there is no question that my own life has been markedly enriched by the ingestion of Kangen Water. ... I endorse Kangen Water as a physician, as a surgeon, as a human being, 100%. I feel that it is of great benefit to all mankind. ... I can only recommend it in the highest way."

~Dr. Horst Filtzer, Vascular Surgeon

Dr. Horst Filtzer, M.D. a Harvard Medical School graduate cum laude is a Vascular Surgeon. Horst has 35 years of active surgical practice in General and Vascular Surgery at Cambridge City Hospital in capacities as Assistant Director, Department Chairman, and Program Director He is also Director of the Wound Care Center in Western Arizona Regional Medical Center, Bullhead City, AZ.

Dr. Corinne Allen

"Brain inflammation can occur from many causes including: head injuries, premature birth, lack of oxygen and various infections. The resulting inflammation can provide dysfunction in the body's ability to detoxify harmful substances. They can also exhibit mitochondria that have low energy output and high free-radical generation. Often those with brain challenges like Autism and Aspergers, drink almost no water each day, only accentuating the problems in brain functioning. In Autistics and others where brain inflammation is high, toxins can more easily cross the blood brain flooding the brain with free radicals. Kangen Water™ has been providing my clients with a strong source of antioxidants and improved hydration. In our brain programs we observed that our therapeutic expectations have been significantly exceeded by adding Kangen Water™ to the treatment plan.

~Dr. Corinne Allen, Nutritionist

Dr. Corinne Allen is an international researcher and practitioner in natural health and nutrition and has been in practice for more than 30 years. After receiving her doctorate in nutrition, Dr. Allen went on to more training in neurokinesiology and brain-stimulation techniques. She is recognized for her natural and practical approach to health regarding natural and alternative methods of stimulating permanent changes in the brain in dyslexia, ADD, Autism, Asperger's syndrome, learning disabilities, academic and behavioral issues and brain injuries. She runs the Advanced Learning & Development Institute

Dr. Dave Carpenter

"This [alkalizing] program contains a whole new way of looking at diet and nutrition. When followed, it leads to a healthy, lean, trim body and an enhanced level of wellness, energy and mental clarity most people have not experienced previously. "

"Based on years of research and observation, we have concluded that over acidification of the body is the underlying cause of all disease. Because many people consume a diet primarily comprised of acid forming foods, (i.e. sugars, meat, dairy, yeast breads, coffee, alcohol, starches, etc.) rather than whole plant foods, they are frequently sick and tired"

"In my experience, Kangen Water™ supercharges your nutritional program better than anything. Water is the key and this [Enagic® Kangen™ Water] is the best water I know of. Anyone who gives it an honest try will experience it in their own health, without question!"

~Dr. Dave Carpenter, Naturopathic Physician

Dr. Dave Carpenter is a member of the Idaho Association of Naturopathic Physicians. He is currently the President of the International Iridology Practitioners Association (IIPA), has served on the Board of Directors of IIPA since 1996 as Public Relations Director and Vice-President. Dr. Dave Carpenter is a Licensed Acupuncturist, Fellow of the International Academy of Medical Acupuncturists, and an IIPA Certified Comprehensive Iridologist (CCI). He is also a member of the American Naturopathic Medical Association, the Idaho Acupuncture Association, faculty member of the Intermountain Institute of Natural Health, and a graduate of Central States College of Health Sciences as a Naturopathic Medical Doctor, and the Royal Academy of Naturopathy in Australia as a Naturopathic Doctor, a graduate of the International Academy of Medical Acupuncturists. Dr. Carpenter also holds a BS degree in Nutrition.

Dr. Stefan Kuprowsky

"Acid wastes build up in the body in the form of cholesterol, gallstones, kidney stones, arterial plaque, urates, phosphates and sulfates. These acidic waste products are the direct cause of premature aging and the onset of chronic disease."

"I believe that the best water is water that is alkaline (reduced) and purified using a small device known as a water ionizer."

~Dr. Stefan Kuprowsky, Naturopathic Doctor

Dr. Stefan Kuprowsky is a Canadian naturopathic doctor with impressive academic credentials and a strong vision for natural medicine. He holds a Bachelor's degree in Biological Anthropology from Trent University (1977), a Master's in Medical Anthropology (1982) and a Doctorate in Naturopathic Medicine (1985). He has been in practice over 20 years as a Naturopathic Physician as well as a consultant, writer, lecturer, radio host and teacher in the natural health industry. He has served as President of the BC Naturopathic Association and is currently serving on the BC College Board as Chairman of the Quality Assurance Committee. He is also a professor at the Boucher Institute Of Naturopathic Medicine in New Westminster. Dr. Kuprowsky has studied mind-body medicine with Deepak Chopra and a certified instructor for Dr. Chopra's Creative Health program. He currently operates the Vancouver Naturopathic Clinic.

Dr. Theodore A. Baroody

"Any stressor that the mind or body interprets and internalizes as too much to deal with, leaves an acid residue. Even a mild stressor can cause a partial or total acid-forming reaction. ... The countless names attached to illness do not really matter. What does matter is that they all come from the same root cause: too much tissue acid waste in the body."

"It is my opinion that ionized water will change the way in which all health practitioners and the public

approach their health in the coming years. ... I have administered over 5000 gallons of this water for about every health situation imaginable. I feel that restructured alkaline water can benefit everyone."

~Dr. Theodore A. Baroody, DC, ND, Ph.D., Dipl. Acu., Nutritional Consultant

Theodore A. Baroody, DC, ND, Ph.D., Dipl. Acu. was born in Sanford, NC, in 1950. He received his B.S. in Psychology and his Masters degree in Educational Counseling from Western Carolina University in 1974 and 1978. He received his D.C. degree from Life Chiropractic College of Marietta, Ga. in 1981. He further studied in Beirut, Lebanon and at Colombo Americano, Columbia, as well as having traveled extensively in Europe and Asia to gather information on the healing arts. Dr. Baroody later completed an N.D. from Clayton School of Naturopathy in 1991 after years of clinical research in his practice and received his Ph.D. in Nutrition from American Holistic College. Dr. Baroody is a Certified Nutritional Consultant (C.N.C.) and a professional member of the American Association of Nutritional Consultants, and a diplomate in acupuncture. He is the author of the popular book, Alkalize or Die (2002)

Dr. Susan Lark

"Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability. Alkaline water should be used when conditions of over acidity develop, such as cold, flu or bronchitis. Like vitamins C, E and Beta Carotene, alkaline water acts as an antioxidant because of its excess supply of free electrons. This can help the body against the development of heart disease, strokes, immune dysfunctions, and other common ailments."

"The benefits of the alkaline water created through electrolysis far exceed just its ability to gently raise the pH of the cells and tissues of the body and to neutralize acids. Because the alkaline water has gained a significant number of free electrons through the electrolysis process, it is able to donate these electrons to active oxygen free radicals in the body, thereby becoming a super antioxidant. By donating its excess free electrons, alkaline water is able to block the oxidation of normal tissue by free oxygen radicals."

~Dr. Susan Lark, Clinical Nutritionist

Dr. Susan Lark is one of the foremost authorities in the fields of clinical nutrition and preventive medicine. A graduate of Northwestern University Medical School, she has served on the clinical faculty of Stanford University Medical School, and taught in their Division of Family and Community Medicine. Dr. Lark is a distinguished clinician, author, lecturer and innovative product developer. Through her extensive clinical experience, she has been an innovator in the use of self-care treatments such as diet, nutrition, exercise and stress management techniques in the field of women's health, and has lectured extensively throughout the United States on topics in preventive medicine. She is the author of 13 best-selling books on women's health including The Chemistry of Success.

Dr. Lester Packer

"Scientists now believe that free radicals are factors in nearly every known disease"

~Dr. Lester Packer, Senior scientist at Lawrence Berkeley Laboratory, world's foremost antioxidant research scientist

"Consuming the right type of water is vital to detoxifying the body's acidic waste products and is one of the most powerful health treatments available." ... "We recommended that you drink 8-10 glasses per day of this alkaline water. It is one of the simplest and most powerful things that you can do to combat a wide range of disease processes. It is interesting to note that in Japan, professional sports teams drink alkaline water to improve their performance" ... "It is well known that many chronic diseases result in excess acidity of the body (metabolic acidosis). We also know that the body tends to become more acidic due to modern dietary habits and lifestyles and the aging process itself. By drinking high negative ORP alkaline water, you combat metabolic acidosis and improve absorption of nutrients."

Dr. Lester Packer, is the world's foremost antioxidant research scientist. He is a senior scientist at the prestigious Lawrence Berkeley Laboratory, and Head of the Packer Lab at the University of California, where he has been a professor for 35 years. Dr. Packer is the executive editor of Archives of Biochemistry and Biophysics, and serves on the editorial advisory boards of Free Radical Biology and Medicine, The Journal of Applied Nutrition, and The Journal of Optimal Nutrition. He is a member of eight professional societies and is President of the International Society for Free Radical Research, and Vice President of UNESCO's Global Network of Molecular and Cell Biology. Dr. Packer has published over 700 scientific papers and 70 books on every aspect of antioxidants and health.

Dr. Ray Kurzweil

"There are more benefits to "alkaline water" than simply the alkalinity or pH. The most important feature of alkaline water produced by a water alkalizer is its oxidation reduction potential (ORP). Water with a high negative ORP is of particular value in its ability to neutralize oxygen free radicals. ORP can also be directly tested using an ORP sensor and meter. We have conducted these experiments as well. We found that water coming directly from the tap had an ORP of +290mV, while the water coming out of the water alkalizer had a negative ORP. The more negative the ORP of a substance (that is, the higher its negative ORP), the more likely it is to engage in chemical reactions that donate electrons. These electrons are immediately available to engage in reactions that neutralize positively charged free radicals. This is the key benefit of water produced by a water alkalizer that is not available by simply drinking water that has had some bicarb or other compounds dissolved in it to make it alkaline."

~Dr. Ray Kurzweil, Award-winning Scientist, Inventor

*Dr. Ray Kurzweil is one of the world's leading inventors, thinkers, and futurists. He's been awarded 19 honorary doctorates, honored by 3 US Presidents and is recipient of many of the nations highest awards for excellence. He has been called "the restless genius" by the Wall Street Journal and "the ultimate thinking machine" by Forbes magazine and PBS included him as one of 16 "revolutionaries who made America," along with other inventors of the past two centuries. Time magazine writes, "Kurzweil's eclectic career and propensity of combining science with practical-often humanitarian-applications have inspired comparisons with Thomas Edison". Among Kurzweil's many honors, he is the recipient of the \$500,000 MIT-Lemelson Prize, the world's largest for innovation. In 1999, he received the National Medal of Technology, the nation's highest honor in technology, from President Clinton in a White House ceremony. And in 2002, he was inducted into the National Inventor's Hall of Fame, established by the US Patent Office. Author of several books Dr. Kurzweil second book in 1993, *The 10% Solution for a Healthy Life, How to Eliminate Virtually All Risk of Heart Disease and Cancer*, was published by Crown Publishers.*

-

Dr. Mu Shik Jhon

"Hexagonal water - comprised of small molecular units or ring-shaped clusters - move easily within the cellular matrix of the body, helping with nutrient absorption and waster removal. It aids metabolic processes, supports the immune system, contributes to lasting vitality and acts as a carrier of dissolved oxygen. It can provide alkaline minerals to the body and it helps in the more efficient removal of acidic wastes. Drinking hexagonal water takes us in the direction of health. It supports long life and freedom from disease. Biological organisms prefer hexagonal water."

"Ionized water has a hexagonal shape and carries an abundance of hydroxyl ions (OH⁻). It provides extra electrons that neutralize destructive free radicals circulating throughout the body. Hexagonal ionized water carries a high negative ORP (Oxidation Reduction Potential) when it is first produced, making it a potent anti-oxidant."

"When taken internally, the reduced ionized water with it redox potential, or ORP of -250 to -350 readily donates its electrons to oddball oxygen radicals and blocks the interaction of the active oxygen with normal molecules."

"Water has the ability to attract and accumulate bio-energy. It also stores an energy memory of harmful or helpful vibrations to which it was exposed in the past. Chlorinated tap water is polluted with non-biological chemicals and negative energy imprints. It is also devoid of bio-energy and so may be regarded as being badly polluted as well as 'dead'. Alkaline living water is regarded by a growing number of health care professionals as the best water to drink and is listed as a medical device in Japan for the treatment of degenerative diseases."

"My hypothesis was born from the clinical observation study in our clinic. Since May '85 we have confirmed thousands of clinical improvements, obtained solely by exchanging drinking (as well as cooking water) from tap water to reduced water."

~Dr. Mu Shik Jhon, Chemist, Founding president of the Association of Academies of Sciences in Asia

Professor Mu Shik Jhon, Honorary and Founding president of the Association of Academies of Sciences in Asia (AASA) and Former President of the Korean Academy of Science and Technology (KAST), was born in 1932 at Taegu, Korea and received BS and MS degrees from Department of Chemistry, Seoul National

University in 1954 and 1958, respectively. Then he moved to U.S.A. to pursue his doctorate study at Department of Chemistry, University of Utah. He received his Ph.D. degree in 1966 and became an assistant professor at University of Virginia. Three years later, Prof. Jhon came back to his mother country, Korea, to serve as the head of Liquid State Chemistry Research Laboratory at the Korea Institute of Science and Technology (KIST) in 1969. Then, he joined the Korea Advanced Institute of Science and Technology (KAIST) as a charter member in 1971. Prof. Jhon is a foreign fellow of National Academy of Sciences, India, and Pakistan Academy of Sciences, a foreign academician of Russian Academy of Science and a fellow of the European Academy of Arts, Sciences & Humanities. He published over 280 papers and produced many eminent scholars including about 50 Ph.D.s. He served as President of KAST, Founding President of AASA, Founding President of the Korean Association for the Advancement of Sciences and Chairman of the Board of Research Institute of Bioinformatics and Molecular Design.

Dr. Hidemitsu Hayashi

"Devices to produce reduced water were introduced into our clinic in May 1985. Based on the clinical experiences obtained in the past 15 years, it can be said that introduction of naturally reduced water (using H-01 Active Hydrogen Generator) or electrolyzed-reduced water for drinking and cooking purpose for in-patients should be the very prerequisite in our daily medical practices. It is because any dietary recipe cannot be a scientific one if property of water taken by the patients is not taken into consideration."

"The Ministry of Health and Welfare in Japan announced in 1965 that the intake of reduced water is effective for restoration of intestinal flora metabolism."

CLINICAL IMPROVEMENTS OBTAINED FROM THE INTAKE OF REDUCED WATER

HAYASHI, Hidemitsu, M.D., Water Institute, & KAWAMURA, Munenori, M.D., Kyowa Medical Clinic, (1985-2000) (17)

1. Improvement of blood glucose and HbA1C levels in diabetes mellitus.
2. Improvement of peripheral circulation in diabetic gangrene.
3. Improvement of uric acid levels in gout.
4. Improvement of liver function in hepatic disease, cirrhosis of liver, hepatitis.
5. Improvement of gastroduodenal ulcers and prevention of recurrences.
6. Improvement of cholesterol level; hypertension, angina, myocardial infraction.
7. Improvement of hypersensitive disorders; atopic dermatitis, asthma, urticaria.
8. Improvement of autoimmune disorders; rheumatism, collagen disease, SLE.
9. Improvement of so-called specific diseases; Behcet' syndrome, Crohn disease, ulcerative colitis, Kawasaki's disease.
10. Improvement of malignant tumors of liver; hepatoma, metastatic tumors.
11. Improvement of general malaise, chronic constipation & diarrhea as well as persistent diarrhea occurred after gastric resection.
12. Improvement of dehydration in infants with vomiting and diarrhea caused by viral infection.
13. Improvement of hyperbilirubinemia in newborns.

14. Experiences of pregnant women who took reduced water during their pregnancy; almost no emesis, smooth delivery, slight jaundice, enough lactation, smooth and satisfactory growth of newborns.

~Dr Hidemitsu Hayashi, Cardiovascular Surgeon, Director of the Water Institute of Japan

Dr. Hidemitsu Hayashi was born in 1938. He practiced medicine and specialized in Cardiovascular Surgery after graduating in 1968 from the Medical School of Kobe University, Japan. He also studied at the University of Munich (1970-71). Specialized in the field of Cardiovascular Medicine. In 1985, after 20 years of clinical experiences as a surgeon he began advanced research on the medical benefits of water. In 1995 he simultaneously released in Japan and the U.S. his theory on the effects of hydrogen-rich water in preventing and treating illnesses. Dr. Hidemitsu Hayashi is a researcher and a "Hydrogen-rich Water" Advocate, and is the Director of the Water Institute of Japan in Tokyo

Dr. Robert Young

"The pH level (the acid-alkaline measurement) of our internal fluids affects every cell in our bodies. Extended acid imbalances of any kind are not well tolerated by the body. Indeed, the entire metabolic process depends on a balanced internal alkaline environment. A chronically over-acidic pH corrodes body tissue, slowly eating into the 60,000 miles of veins and arteries like acid eating into marble. If left unchecked, it will interrupt all cellular activities and functions, from the beating of your heart to the neural

firing of your brain. In summary, over-acidification interferes with life itself leading to all sickness and disease!"

"Researchers believe that disease is caused by excess acidity in our body that weakens all body systems. Caused by our high stress lifestyles, what we eat and pollutants, it affects virtually everyone. This forces the body to rob minerals - calcium and magnesium - from vital organs and bones. Our reserves are depleted, leaving the body vulnerable to bone density loss, heartburn, indigestion, blood sugar issues, weight gain - 68 conditions in all. When healthy, your body has sufficient alkaline reserves to balance it self - and naturally resists disease. The easiest way to help your body to be more alkaline is to drink alkaline water"

~Dr. Robert O. Young, Cellular Nutritionist

***Robert O. Young, MS, D.Sc., Ph.D., N.D.** has been widely recognized over the past two and a half decades. Throughout his career, his research has been focused at the cellular level. Having a specialty in cellular nutrition, Dr. Young has devoted his life to researching the true causes of "disease," subsequently developing *The New Biology™* to help people balance their life. In 1994, Dr. Young discovered the reality of biological transformation of red blood cells into bacteria and bacteria to red blood cells. He has since documented several such transformations. Dr. Young's research findings have been published in several noted journals, including *The Journal of Alternative and Complementary Medicine*. (*Sympathetic Resonance Technology, Scientific Foundations and Summary of Biologic and Clinical Studies*, Dec. 2002, Vol. 8, No. 6: 835-842.) He is the author of numerous articles and author and co-author of many books including *The pH Miracle* (2002), *The pH Miracle for Diabetes* (2003), *The pH Miracle for Weight Loss* (2004).*

Dr. Sherry Rodgers

"Alkaline water rids the body of acid waste... After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease."

~Dr. Sherry Rodgers, M.D., Immunologist, Environmental Medicine

***Dr. Sherry Rogers MD**, is a Fellow of the American College of Allergy and Immunology and a Diplomate of the American Academy of Environmental Medicine, and has been in private practice for over 26 years. Dr. Rogers lectures on her original scientific material worldwide, as well as giving advanced courses for physicians. She developed the Formaldehyde Spot Test and published her mold research in three volumes of the *Annals of Allergy*. She has published chemical testing methods in the *National Institutes of Health Journal, Environmental Health Perspectives*. In addition, she has published multiple scientific articles, authored 13 books including her most recent, *The High Cholesterol Hoax, The High Blood Pressure Hoax, Detoxify or Die and Pain Free* and has been environmental editor for *Internal Medicine World Report*. Dr. Rogers has appeared on numerous television and radio programs.*

Dr. Peggy Parker

"Months of testing and research have led me to the discovery that drinking Kangen Water™ is the most effective tool I have found to quickly, easily, and economically reduce cellular oxidation and achieve a more alkaline pH in the body."

As a Biological Medicine Physician, I have been measuring the levels of oxidation in bodily fluids for about a decade using a very sophisticated piece of lab equipment called the QFA (Quantitative Fluid Analysis). Based on the rate of oxidation in these fluids this measurement device calculates a person's biological age. For most people this biological age is generally 20-50 years older than their actual chronological age. Since it is our biological age that determines the length of our life, that number is quite significant. More than 3 years of testing and research have led me to the discovery that drinking Kangen Reduced Alkaline Water is the most effective tool for quickly, easily and economically changing the rate of oxidation on cells that I have ever encountered."

"One can therefore say that drinking ionized Kangen water has the potential to slow the aging process. The powerful component of the water that does this is the -ORP (Oxidation Reduction Potential) charge on the water. This negative ORP part of the water is what causes this water to be able to slow down the oxidation of our bodies. As the cell walls of our body become oxidized, they become sticky and this prevents hydration of the body as well as nutrient absorption and cell waste to be expelled. The -ORP removes oxidation from the cell wall and allows for better hydration, and cell metabolism and overall cell health."

~Dr. Peggy Parker, Naturopathic Physician, Biological Medicine

***Dr. Parker, N.D.** & Biological Medicine expert is a traditionally trained Naturopathic Physician who resides in Spokane, Washington. She is an internationally renowned teacher and lecturer. After receiving her Naturopathic degree, Dr. Parker continued her education with a post-doctoral degree in Biological Medicine from the PBMN in Lustmühle, Switzerland. This intensive, two year program was designed and led by the famous Swiss physician, Dr. Thomas Rau. The basic focus of this course revolved around adjusting the pH (acid/alkaline ration within body fluids), ORP (rate of oxidation in body tissues), and the conductivity of minerals across the cell wall membrane, and just how these factors affect health. As a physician Dr. Parker has been trained to both administer and evaluate tests including Darkfield Microscopy, Biological Terrain Assessment (QFA), EAV, Electro-Dermal Screening, Computer Regulation Thermography, Tongue and Pulse Diagnosis, Sclerology, Heart Rate Variability, Hair Tissue Mineral Analysis, Applied Kinesiology and Hyperbaric Oxygen Therapy to name a few*

Dr. Leonard Horowitz

"International studies show that populations with little or no history of illness, such as cancer, drink higher pH (alkaline) waters. After all potential risk factors were considered and factored out, it became evident that they had been drinking waters with a pH of 9.0 to 10.0."

~Dr. Leonard Horowitz, Behavioral Scientist, Educator (25)

***Dr. Len Horowitz** is an internationally known authority in behavioral science, public health education, and health practice management. He received his doctorate from Tufts University, was awarded a fellowship to do behavioral research at the University of Rochester, and later earned a Master of Public Health degree in behavioral science from Harvard University and a Masters degree in health education from Beacon College. One of healthcare's most captivating motivational speakers, Len has served on the faculties of Tufts University, Harvard University, and Leslie College's Institute for the Arts and Human Development, directed a multidisciplinary health center for over a decade, and currently serves as President of Tetrahedron, Inc., a nonprofit health educational corporation.*

Dr. Don Colbert

"Hexagonal, alkaline water is especially effective in treating those with chronic disease."

"Your body thrives in an alkaline environment since it is able to detoxify more efficiently than in an acidic environment. In an alkaline environment your tissues get rid of impurities more efficiently. When cancer patients come into my office to begin nutritional treatment, their bodies are almost always very acidic and toxic. My first task is to get their tissues alkalinized with alkaline water."

"I have recommended alkaline hexagonal water to even my youngest patients. In 2005 a ten-year old girl and her parents came to my office in South Carolina. The girl had crippling juvenile rheumatoid arthritis and weighed only fifty-two pounds. Her hands were swollen like mitts, and her knees were swollen as large as softballs. I put her on hexagonal, alkaline water, one to two quarts a day. A week and a half later she was pain free, and her swelling was significantly diminished. When she arrived she was wheelchair bound, but she was actually able to walk without pain after only a week and a half of drinking hexagonal, alkaline water. Her parents were ecstatic. We raised the pH of her tissues. After a month, her hands were almost normal size."

~Dr. Don Colbert, Medical Doctor

***Don Colbert, M.D.**, is board certified in family practice and anti aging medicine. He is the Medical Director of the Divine Health Wellness Center in Orlando, Florida where he has treated over 40,000 patients. Dr. Colbert is an internationally known expert and prolific speaker on integrative medicine (a combination of traditional and alternative medicine). Don Colbert, M.D. has been featured on Fox News, ABC World News, The Atlanta Journal Constitution, BBC, Readers Digest, News Week, Prevention Magazine, and many others. He's the best-selling author of over 40 books including What Would Jesus Eat, The Bible Cure Series, as well as The Seven Pillars of Health (a New York Times best-seller) that together have sold over 4 million copies. Many of Dr. Colbert's books are required reading at many medical schools around the world. Dr. Colbert is on the Medical Advisory Board for the Fellowship of Christian Athletes. Dr. Colbert is also the president of Divine Health Inc., which distributes and sells nutritional supplements and vitamins*

Shan Statton, Sports Nutritional Consultant
for the NBA, NFL, MLB, PGA, LPGA, NASCAR, NHL, NY Yankees, AZ Diamondbacks, Houston
Rockets, LA Dodgers, etc.

Whilst I taught the principles and the need for hydration, I never understood until about four months ago the need for 'proper' hydration. For fifteen years I taught in the nutrition industry the importance of nutrient utilization rather than nutrient consumption. That same principle holds true in the area of hydration. It's not about how much water or liquid you drink it's about how much is actually being utilized within the body.

I was introduced to a company called Enagic® who provide a very simple technology that improves hydration. Their water is called Kangen Water™. Kangen in the Japanese word meaning "return to origin. I had thought, water was water. That couldn't have been further from the truth. I was missing a very key component of our health, and that is proper hydration. "

If you go back to the basics of nature, and you take water from natural springs coming out of the earth, all of that water has a very high pH or alkalinity to it, and the waters that we drink out of the tap or purification systems, or bottled water is far from alkaline, in fact it is more acidic. I spent fifteen years trying to teach people to reduce the acidity within the body through the food that we eat. But, that really takes a complete lifestyle change, when in reality I now realize that we can change very quickly and effectively by simply changing the water we drink. ...

This Kangen Water technology is truly nothing short of miraculous in my opinion, because it really provides three different very important aspects to our health that I find very intriguing. Number one is this machine provides a very high antioxidant based water ... the second thing I am really impressed with is its micro-clustering abilities ... and the third component [its alkalinity], Kangen Water™ is up to a 9.5 pH."

~Shan Stratton, Sports Nutritionist

Shan Stratton, Sports Nutritional Consultant for the NBA, NFL, MLB, PGA, LPGA, NASCAR, NHL, NY Yankees, AZ Diamondbacks, Houston Rockets, LA Dodgers, etc. He has worked with countless famous athletes like Kurt Warner, Maria Sharapova, Reggie Jackson, Cynthia Cooper and on and on. He states that drinking Kangen Water is the missing link to overall health and performance for athletes after promoting and counseling the use of high quality supplements, enzymes, and probiotics to the athletic community for over 15 years.

Felicia Drury Kliment BA. MS

"After years of very positive continuous clinical experiment that I am conducting with hundreds of clients using electronically restructured alkaline water, it is my opinion that this technology will change the way in which all health providers and the public will approach their health in the coming years. ... My suggestion is to drink restructured alkaline water whenever possible."

~Felicia Drury Kliment

Felicia Drury Kliment BA. MS. is the author of The Acid Alkaline Balance Diet (2002). Her acid alkaline diet plan guides and shows how you can cure acid reflux and other degenerative diseases by following a simple diet program. Starting out as a teacher in the inner city, Felicia Drury Kliment was determined to find out what caused the learning disabilities and behavioral disorders in the children she taught. She found the answer when, years later, as a faculty member at The City College of the City University of New York, she and a colleague conducted a series of statistical research studies. These studies revealed how the processed food served in school cafeteria triggered out of control behavior in the classroom and made it harder to learn.
